SAQIB AHMED DADABHOY

A **Front-end Web Developer** with experience in **UI/UX/Web Design**.

JavaScript (AngularJS, jQuery, AJAX), HTML, CSS (Sass, Bootstrap, Foundation), Git, and Adobe Creative Suite. Passionate about the front-end, beautiful design and fluid user experiences.

EXPERIENCE

SENIOR FRONT-END DEVELOPER

Tangerine

Nov 2016 - Present

Hired as the Marketing Division's dedicated Front-end Developer for the redevelopment of Tangerine's website. Beyond setting up development and design processes and suggesting tools and software for the team I was tasked to manage, my responsibilities included creating wireframes by extending on existing designs and consequently developing modularized front-end components using Sass/CSS, HTML and some AngularJS.

FRONT-END DEVELOPER, UI/UX/WEB DESIGNER

Sym-Tech

Jan 2016 - Nov 2016

Brought on to provide Sym-tech with an overall web UI identity, that was to be used in all projects moving forward. Worked with a team of backend developers in launching a web app (Sym-Tech Portal, used by 400+ dealerships) - built on MeteorJS, I was responsible for wireframing/mock-up the UI and then programming the responsive front end in AngularJS, Angular Material and Sass/CSS.

FRONT-END DEVELOPER, UI/UX/WEB DESIGNER

GryphTech

May 2015 - Dec 2015

Hired to act as the bridge between the design and development departments. Day-to-day responsibilities/work process: meeting with product managers to determine client requirements, rounds of wireframe iterations, user interface designing and finally and development of responsive front-ends. Prominent projects: RE/MAX Redesign/Development

MEDIA & MARKETING MANAGER

Healthy Planet

Sept-2012 - Jan 2015

Among the numerous marketing-related duties (branding, media relations, sales etc), I worked as interim CTO during the redevelopment of the e-commerce webstore. Tasks included acting as a liaison between the development team and the stakeholders, UI/UX for the website, QA testing and some basic front-end development.

EDUCATION

BITMAKER LABS Full-Stack Development 2015

Learned and executed the production lifecycle of agile web development, from idea conception to development, deployment and production. Skills Learned: Ruby(on Rails), JavaScript, jQuery, HTML, CSS, Git, Unix, SQL, TDD.

WESTERN UNIVERSITY BA Media, Information & Technology 2007 - 2011

Courses included: HTML, CSS, jQuery, Adobe Dreamweaver, Adobe Photoshop, Video Editing (Final Cut Pro), Public Relations, UI/Web Design.
